

# Take it **Easy**<sup>TM</sup>

**3 easy and important facts to consider when comparing privacy screen systems**

## 1. **EasyReturn** Quick and easy to fold back

Lightweight material and a Built-In Memory for an easy and quick return to its original position

**The One Touch Point Handle means:**

- No need for hands to touch other surfaces when moving the screen
- Only one hand needs to be used which reduces cross-infection

## 2. **EasyClean** Optimises infection prevention

The Silentia Screen System meets strict hygiene requirements

- All surfaces are smooth and easy to reach
- All surfaces withstand disinfectants used in today's care situations

**Contact us for a free demonstration**

Our product specialists are available to give you a free demonstration and test trial. Together we will help you find the right solution for your working environment.

### 3. **Mobile** made easy

#### Silentia's space-saving & secure mobile screens

The Silentia screen is available as a Bed End Screen or Mobile Trolley. Both solutions provide mobile privacy when necessary.

**The Bed End Screen and Mobile Trolley have one of the smallest wheelbases on the market.** It takes a minimal amount of space while supporting all heights: 1.45 m, 1.65 m and 1.85 m for the Mobile Trolley and 1.55 m and 1.85 m for the Bed End Screen.

**All functions** are easy to reach from the front of both mobile screens.

**1** Push it up against the wall and lock the two front wheels

**2** Release the silicon cord

**3** Pull the screen out with one hand. This means less cross-infection
